

Be sure to leave plenty of visual breathing room ("whitespace") between the edge of the text and the borders of any box text is in.

For templates and tutorials, visit: commons.trincoll.edu/posters101/

Central Services won't print posters with a solid color background. Stick with a white background, and use color elsewhere to add contrast.

Leave a 1-inch border on all sides of your poster content.

Project Title (86 points)
 Author Names (56 points)
 Additional Information (36 points)

The heading area is 4" tall, and stretches across all columns of the poster.

This text box contains **200 words**.
 The font size is 24 points. This is the **smallest** size you should use for paragraphs of text.
 The paragraph spacing is set to insert **12 points of space after each paragraph**. Your paragraph spacing should equal half your font size. Whenever you change your font size, change the paragraph spacing.
 The paragraph line spacing is set to a **multiple of 1.2**. This is a comfortable line spacing for most fonts and content.
 The text box has a left and right margin of .2"

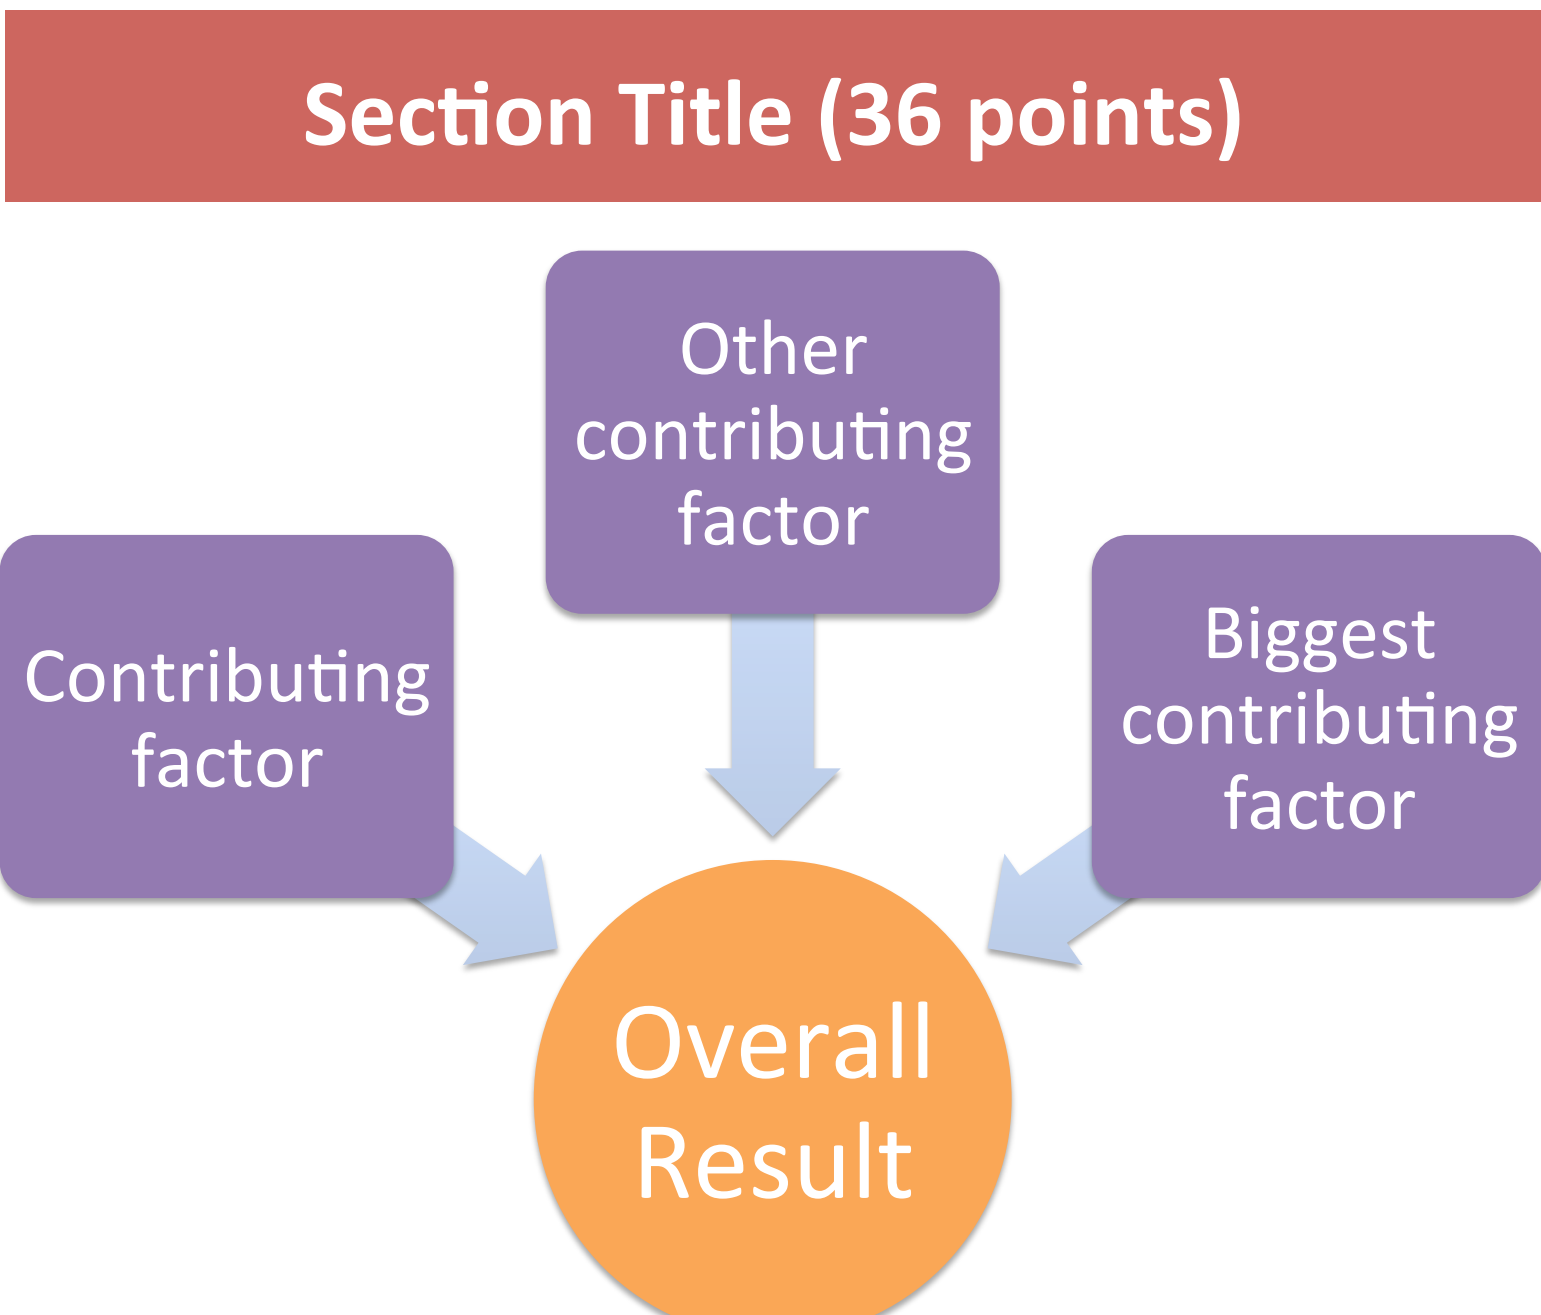

Section Title (36 points)

Only use the logo treatments provided in the templates on commons.trincoll.edu/posters101. Never stretch, skew or distort the logo.

Each column on this page is 8 1/2" wide. It is essential that every column on your poster be the same width.

Every table, image, diagram, chart or photograph should have a **caption**.
 The caption can be smaller than your body content text. The font size on these captions is **18 points**.

This chart spans 2 columns, for a total of 17". If you can't fit content into a single column, you can expand the content to cover 2 columns.
 The only kind of text that should stretch a 2-column area is a caption. Full paragraphs of text, or lists, are difficult to read when stretched across 2-columns.

The column divisions on your poster don't need to be visible. If you choose to hide them, the unity they bring to your layout will still be there.
 See other examples on display. They all use a grid, whether the gridlines are visible or not.

Leave a 1-inch border on all sides of your poster content.
