JOURNAL

It is a great pleasure to announce the appointment of two new Associate Editors for the journal, Karen Adolph (New York University; [adolph@xp.psych.nyu.edu](mailto:adolph@xp.psych.nyu.edu)) and Benoît Bardy (University of Paris Sud XI; [benoit.bardy@staps.u-psud.fr](mailto:benoit.bardy@staps.u-psud.fr)).

-----  
WEB Pages -- Extensive information about all meetings related to the ISEP is available from the Society's World Wide Web page. The address is: <http://www.trincoll.edu/depts/psyc/isep.html>. The links from this site are rich with abstracts, photographs, dates, and whatever information is germane. Except for journal contents, all links were checked and corrected in the first week of January, 2000, and are working. Additions also have been made to bring it up to date. Nevertheless, constant vigilance is required for keep everything available. Please write to Bill Mace with any corrections that need to be made.

As discussed at the Edinburgh meeting, the Human Kinetics Web Site (<http://www.hkusa.com/>) invited us to be a partner on their site. Paul Treffner and Pat Cabe have volunteered to help out with our site to make it active enough to warrant regular updating for people getting to us through Human

Kinetics interests. We would like to have short reviews (perhaps we might call them "notices") of books, papers, conferences, and web sites that people have found germane to ecological psychology. CONTRIBUTIONS? Because we're living increasingly on the Web, most of the notices would, I presume, be accompanied by Web addresses. Besides very good sources, there are promising ones that ought to be good but that do not pay off. Tell us that too.

#### EDINBURGH

It is hardly news now that we met for the TENTH International Conference on Perception and Action last August (8 - 13, 1999). David Lee, Madeleine Grealy, and Jimmie Thomson worked tirelessly and effectively to stage one of our finest conferences yet. At the moment, the conference Web Site still is open (<http://moebius.psy.ed.ac.uk/~icpa/>) for those who would like to review some of what went on. The poster book, an LEA publication, is available through me for \$20. Make out a check for a Poster Book to 'LEA' but send it to me for forwarding. Otherwise you'll pay considerably more at LEA. This and all the poster books from LEA are available. You can read about them on the LEA Web site, linked from the ISEP home page or direct (e.g. the latest book is listed at <http://www.erlbaum.com/html/2997.htm>.)

#### BOARD ELECTION

Society Business meetings, with the election of the Board of Directors occur during these biennial conferences. In Edinburgh, the balloting (counting proxies delivered to Bill Warren) resulted in the election of these eight (8) people whose terms will last until 2003: Karen Adolph, Benoit Bardy, David N. Lee, Bill Mace, Claire Michaels, Sheena Rogers, Bob Shaw, and Bill Warren.

The other 7 Board members, whose terms expire in 2001 are Reinoud Bootsma, Claudia Carello, Alan Costall, Carol Fowler, Eleanor Gibson, John M. Kennedy, and Tom Stoffregen.

#### FIFTH BIENNIAL MOTOR CONTROL AND HUMAN SKILL WORKSHOP

Paul Treffner, of Griffith University in Australia, is a key figure in organizing this meeting at the end of this month ([http://www51.gu.edu.au/mc\\_conf/index.htm](http://www51.gu.edu.au/mc_conf/index.htm)). Paul is warming up in preparation for ISEP XII in 2003. ISEP Board member, Bill Warren, will conduct a workshop and give one keynote address at the conference. Peter Beek and Karl Newell also will give keynote addresses. Other ISEP members on the program are Barry Hughes and Jeff Summers.

#### ICPA XI

Last Week of June 2001

The Eleventh ICPA conference will celebrate the 20th Anniversary of these conferences by returning to the site of the first one, the University of Connecticut at Storrs. We'll be taking stock to see if our field has evolved as much as the campus, which is enormously different from what it was in 1981. Information about the conference will start coming out later this spring.
