

The International Society for Ecological Psychology

Below you will find the schedule for the fall program of the ISEP. Most of you who will be coming to the meeting will need more information (like maps and directions).

Please let me know if you are coming, as well as what more you might need to know.

Please note that there will be a reception for all those coming in on Friday night. The time is set but not the place. That's one of the details that will be determined quite soon.

Note too that a dining hall has been set aside for us to eat lunch together. The meal there will be about 6 dollars.
